# FORWARD-LOOKING STATEMENTS

---

*Forward-looking statements are included in this presentation. These forward-looking statements are typically identified by the use of terms such as “outlook”, “guidance”, “target”, “forecast”, “assumption” and other similar expressions or future or conditional terms such as “anticipate”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “will”, “would”, and “should”. Such statements may involve but are not limited to comments with respect to strategies, expectations, planned operations or future actions.*

*Forward-looking statements, by their nature, are based on assumptions and are subject to important risks and uncertainties. Any forecasts, predictions or forward-looking statements cannot be relied upon due to, among other things, changing external events and general uncertainties of the business and its corporate structure. Results indicated in forward-looking statements may differ materially from actual results for a number of reasons, including without limitation, dependency on significant Accumulation Partners and clients, failure to safeguard databases, cyber security and consumer privacy, changes to the Aeroplan Program, reliance on Redemption Partners, conflicts of interest, greater than expected air redemptions for rewards, regulatory matters, retail market/economic conditions, industry competition, Air Canada liquidity issues, Air Canada or travel industry disruptions, airline industry changes and increased airline costs, supply and capacity costs, unfunded future redemption costs, changes to coalition loyalty programs, seasonal nature of the business, other factors and prior performance, foreign operations, legal proceedings, reliance on key personnel, labour relations, pension liability, technological disruptions and inability to use third-party software, failure to protect intellectual property rights, interest rate and currency fluctuations (including currency risk or our foreign operations which are denominated in a currency other than the Canadian dollar, mainly pound sterling, and subject to fluctuations as a result of foreign exchange rate variations), leverage and restrictive covenants in current and future indebtedness, uncertainty of dividend payments, managing growth, credit ratings, audit by tax authorities, as well as the other factors identified throughout Aimia’s MD&A and its other public disclosure records on file with the Canadian securities regulatory authorities.*

*In particular, slides 12 and 22 of this presentation contain certain forward-looking statements with respect to certain financial metrics in 2015. Aimia made a number of general economic and market assumptions in making these statements, including assumptions regarding currencies, the performance of the economies in which the Corporation operates and market competition and tax laws applicable to the Corporation’s operations. The Corporation also made certain assumptions with respect to the financial impact of the outcome of its ongoing negotiations with each of TD and CIBC in relation to the Aeroplan financial card agreements as a result of changes to credit card interchange rates implemented as of April 30, 2015. The Corporation cautions that the assumptions used to make these statements with respect to 2015, although reasonable at the time they were made, may prove to be incorrect or inaccurate. In addition, these statements do not reflect the potential impact of any non-recurring or other special items or of any new material commercial agreements, dispositions, mergers, acquisitions, other business combinations or transactions that may be announced or that may occur after May 15, 2015. The financial impact of these transactions and non-recurring and other special items can be complex and depends on the facts particular to each of them. We therefore cannot describe the expected impact in a meaningful way or in the same way we present known risks affecting our business. Accordingly, our actual results could differ materially from the statements made on slides 12 and 22 of this presentation.*

*The forward-looking statements contained herein represent the Corporation’s expectations as of May 15, 2015 and are subject to change. However, Aimia disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, except as required under applicable securities regulations.*

# Q1 2015 UPDATE

---

- **Q1 Highlights**
- **Progress against our global growth strategy**
  - Aeroplan Transformation
  - Nectar - new accumulation structure focus on bonusing
- **Global IT service agreement with HP**
- **Capital allocation and Returns to Shareholders**

# Q1 2015 HIGHLIGHTS

---

Good start to the year sets us up well for the balance of the year

- (1) Excluding the \$100.0 million upfront TD contribution received in the first quarter of 2014.
- (2) Free cash flow before common and preferred dividends paid.

# AEROPLAN TRANSFORMATION

---

aeroplan

**Continue to evolve Aeroplan against a strategic plan for customer-centric growth through 3 initiatives:**

**1. Launch of Distinction in 2014:**

- Membership in Distinction up 25% YoY
- Distinction members frequent 2.5x more partners than non-Distinction members

**2. Support member comprehension:**

- Improvements in understanding of availability, value, and exclusivity
- Focused on improving overall member satisfaction

**3. Deliver an exceptional member experience**

- Upgrade platform to improve redemption experience
- Invest in key areas of redemption to make it easier and engaging
- Help members earn faster

# NECTAR PROGRESS

---

**Nectar UK delivered robust results despite continued weakness in the grocery sector**

**Sainsbury's**

- **Sainsbury's continues to use Nectar points as a tool in a highly competitive market**
- **Sainsbury's increase in bonusing activity before the changes made to the points structure on April 11 is an encouraging start to its new strategy**
- **We expect by year end, the aggregate point issuance, which has a contractually protected minimum, will be in line with previous years**

# PARTNERING WITH A GLOBAL IT LEADER WITH HP

---

- **Leverage industry best practices**
- **Benefit from HP's investment in digital technologies, data security**
- **Reduce our cost of innovation and risk**
- **Ability to flexibly scale up or down anywhere in the world, as needed**
- **Aimia able to focus on core business and innovation to remain a global loyalty leader**

# PROGRESS AGAINST STRATEGY IN Q1

---

## Strengthen our current position

- Aeroplan transformation stabilizing
  - Nectar - grocery sector strength
  - Air Miles Middle East rejuvenated
- 

## Codify and replicate successful models globally

- Expanded with Smart Button wins globally
- 

## Break away from the pack with distinctive capabilities

- Partnership with Air New Zealand
  - Acquisition of 11 Ants Analytics
  - To collaborate and extend expertise for the airline industry
- 

## Evolve our operating model

- 10 year agreement with HP
  - To provide IT services globally
  - Support our business needs today & future
  - Optimize our operations
-

# CAPITAL ALLOCATION CONSIDERATIONS

---

Have expanded through partnerships, small investments, acquisitions and investments.

## SUPPORTING OUR GLOBAL STRATEGY:

### **Codify and replicate successful models globally:**

Partnership with Club Premier leverages our expertise gained from running Aeroplan.

### **Break away from the pack:**

Investment in Cardlytics provides access to their intellectual capital secures our long-term global rights to this card-linked offering

### **Regularly review our business operations and investments:**

Warrant additional capital investment vs not → require serious scrutiny.
